ABOUT ME

As a passionate UX Designer with a strong background in user-centered design, I specialize in research, analysis, and prototyping to create engaging digital experiences. Leveraging design thinking, I tackle problems and enhance user satisfaction, while thriving in fast-paced environments to deliver meaningful interactions that resonate with users.

WORK EXPERIENCE

Merlin | Software for Crisis

Feb 2023 - Present

User Experience Designer

- Led the creation of a design system to improve the user experience for Merlin Crisis software.
- Redesigned the interface to make it more user-friendly, using user research and high-fidelity prototypes.
- Developed user flows and carried out usability tests.

Tallinn Central Library

Jan 2024 - Jun 2024

User Experience Designer

- Led a UX research project to improve the Tallinn Central Library's website and app.
- Made content simpler, increased user satisfaction, and ensured WCAG compliance, leading to greater user engagement and accessibility.

Nederlandse Spoorwegen

Feb 2023 - Jun 2023

Service Designer

- Collaborated on a service design project to improve bike parking at smaller train stations in the Netherlands.
- Created an innovative concept that uses storytelling and natural elements, resulting in a better user experience and more efficient use of space.

Orbital Eye B.V.

Aug 2022 - Feb 2023

User Experience & Interface Design Intern

- Improved the usability of the CoSMIC-EYE app for satellite data analysis by refining the design and creating high-fidelity prototypes.
- Conducted user testing and worked with development teams, leading to increased user satisfaction and adoption.
